

Rocky Mountain Chapter - American Concrete Institute Masonry Field Testing Technician Certification 2022 Registration Form

OVERVIEW

A **Masonry Field Testing Technician** is an individual who has demonstrated the knowledge and ability to perform sample preparation and testing of masonry construction-related materials including materials for brick, structural clay tile, concrete masonry units, prisms, mortars, and grouts in the field. The program requires a working knowledge of field procedures selected from the following ASTM test methods and practices:

- C67/C67M-18 Sampling and Testing Brick and Structural Clay Tile
- C140/C140M-18a Sampling and Testing Concrete Masonry Units and Related Units
- C780-18a including Annex Preconstruction and Construction Evaluation of Mortars for Plain and Reinforced Unit Masonry
- C1019-18 Sampling and Testing Grout
- C1314-18 Compressive Strength of Masonry Prisms

***Note - If you are ACI Concrete Field Testing Technician Grade I certified you will be exempt from performing C1019 of the performance exam. You must bring your ACI Concrete Field Testing Technician Grade I certification card to the testing session.**

CERTIFICATION REQUIREMENTS:

ACI will grant certification only to those applicants who meet both of the following requirements: A passing grade on the ACI written examination; AND successful completion of the ACI performance examination.

The one-hour **written examination** is closed-book and consists of approximately 60 multiple-choice questions. There are between eight and 12 questions on each of the ASTM test methods and practices. To pass the written examination, BOTH of the following conditions must be met: At least 60% correct for each of the required test methods and practices; AND a minimum score of 70% overall.

The **performance examination** is also closed-book and requires actual demonstration of select field procedures described in ASTM test methods C140/C140M, C780, and C1019. The examinee is judged on his/her ability to correctly perform (or describe, where allowed) required steps for each procedure. Recertification is necessary every five years and requires successful completion of both the written and performance examinations.
